Summary :

Frontend developer with 1+ years of experience building high performance web apps using React.js and Next.js. Expert in efficient state management . Committed to writing clean, reusable and optimized code to maximize application speed and enhance user experience.

Skills :

- **Frontend** : JavaScript , React.js, Next.js, Tailwind CSS, Bootstrap
- **State Management** : Redux, Zustand
- **Tools & Platforms** : Git, GitHub, Vercel

Professional Experience:

Frontend Developer (Intern) | Creative IT Institute

Feb 2026 – Present

- Successfully delivered 5+ dynamic, full-scale websites using React and Next.js. Collaborated effectively within a 6-member cross-functional team to meet tight deadlines and high-quality standards.
- Highly reusable and modular UI components using HTML5, CSS3, and Tailwind CSS. Focused on creating seamless user experiences with 100% cross-device compatibility and responsive design.
- Boosted page loading speed by 40% by implementing writing clean and maintainable code, and utilizing advanced React optimization techniques.

Projects :

CreativeWeb | Interactive Web Platform

Tech Stack : JavaScript, Tailwind CSS

- Developed a scalable web application leveraging JavaScript, and Tailwind CSS to provide a fluid and responsive user journey.
- Implemented a robust mobile-first design strategy, eliminating cross-browser discrepancies and ensuring pixel-perfect UI across mobile, tablet, and desktop views.

Uomo-eCommerce | E-commerce Interface

Tech Stack : JavaScript, Next.js, Tailwind CSS

- Built a premium interface using Lenis for smooth scrolling, ensuring a seamless transition from product discovery to a frictionless checkout process.
- Improved loading speeds by **35%** by leveraging Next.js dynamic imports and advanced lazy loading to ensure a fast and snappy user experience.
- Used Zustand for lightweight and efficient state management, reducing unnecessary component re-renders and keeping the codebase easy to scale.
- Developed a fully responsive, mobile-first design using Tailwind CSS, focusing on clean layouts, interactive elements, and modern web aesthetics.
